SUBJ: FLIGHT STANDARDS/MEDICAL RESEARCH COMMITTEE

1. PURPOSE. This order establishes the Flight Standards/Medical Research Committee to be jointly administered by the Flight Standards Service and the Office of Aviation Medicine, with participation by the Systems Research and Development Service to the extent that its research projects relate to the medical research work directly applicable to the mission of the Flight Standards Service.
2. DISTRIBUTION. This order is distributed to the director level in Washington, the Aeronautical Center, and NAFEC; to the division level in Washington Flight Standards, Aviation Medicine, and Research and Development offices; and to the Civil Aeromedical Institute.
3. FUNCTIONS. The primary objective of the Flight Standards/Medical Research Committee is to facilitate the exchange of information between the Flight Standards Service and the Office of Aviation Medicine, together with the Systems Research and Development Service, concerning needs for medical research work. The committee will serve as a means of disseminating these needs and as a means of enabling the Flight Standards Service to remain cognizant of current medical research activities.
4. COMPOSITION.
 - a. The Flight Standards/Medical Research Committee will be cochaired by the Flight Standards R&D Coordinator, AFS-104, and the Chief, Aeromedical Applications Division, AAM-100.
 - b. Designated representatives of the following organizations will serve as members of the committee:
 - (1) Flight Standards Service (3)
 - (a) Air Carrier Division, AFS-200
 - (b) General Aviation Division, AFS-800
 - (c) Safety Regulations Division, AFS-900
 - (2) Office of Aviation Medicine (2)
 - (a) Chief, Research Planning Branch, AAM-110
 - (b) Chief, Bioengineering Branch, AAM-130
 - (3) Systems Research and Development Service (1) - Aircraft Safety and Noise Abatement Division, ARD-500

Distribution: W-1 (except FS/AM/RD); WFS/AM/RD-2;
NC-1; CAM-2

Initiated By: AFS-12

4/29/76

5. MEETINGS. The committee will meet on call of the cochairperson. At least once a year, the committee will meet at the Civil Aeromedical Institute to review the medical research programs in the areas relating to the Flight Standards program responsibilities.
